

SCALETEC PLUS® Product Overview:

Scaletec Plus® Synertec™ formula utilizes advanced polymers, descalers and metal stain lifters for powerful cleanup action. Pool owners now have a more effective way to cleanup calcium scale and stains on pool surfaces, tile and equipment without acids and minimal scrubbing. Scaletec Plus® enviro-safe, acid-free, low phosphorous formula is effective for both scale and stain removal. Most metal stains are quickly removed from surfaces.

Scale Removal - Quick Start Guide: Chlorine Pools:

1. Lower chlorine levels to within 1 to 3 ppm.
2. Add Scaletec Plus dosage (use chart) directly to pool water.
3. Operate pool recirculating pump as normal cycle.
4. Maintain chlorine levels at 1 to 3 ppm and pH at 7.2 to 7.8.

Scale Removal - Quick Start Guide: Salt Cell Pools:

1. Lower chlorine levels to within 1 to 3 ppm.
2. TURN OFF SALT CELL GENERATOR for 1 to 2 weeks.
3. Add Scaletec Plus dosage (use chart) directly to pool water.
3. Operate pool recirculating pump as normal cycle.
4. Maintain chlorine levels at 1 to 3 ppm and pH at 7.2 to 7.8.
5. Use liquid or chlorine tablets as alternate chlorine source.

For all Pools - during cleanup period:

1. Waterline calcium scales: raise and maintain water level above scale line. Scrubbing helps improve scale removal.
2. Do not chlorine shock pool.
3. For heavy or old, hard scale: allow up to several months for scale removal. Repeat dosages may be required.

Super Concentrated for All Types of Swimming Pools

SCALETEC PLUS

Pool Surface - Tile Calcium and Stain Remover

✦ De-scales Pool Surfaces and Tile Without Acid Washing, Draining, or Scrubbing!

✦ Removes Calcium-Lime Scales, Metal Stains and Scum Buildup.

✦ Prevents New Calcium Buildup and Metal Stains: (iron, copper, & manganese).

The Easiest Way To Keep Pool Surfaces Clean

64 FL. OZ. (½ gallon / 2 qts.) or 1.9 LITRES

Made in U.S.A.

SCALETEC PLUS® TREATMENT CHART:

POOL SIZE (in U.S. gals. and litres)	CALCIUM / SCALE REMOVAL		MONTHLY MAINTENANCE
	FALL - SPRING	SUMMER	
10,000 (38,000 L)	32 oz. (1 litre)	64 oz. (2 litres)	10 oz. (300 ml.)
15,000 (56,000 L)	48 oz. (1½ litres)	98 oz. (3 litres)	15 oz. (450 ml.)
20,000 (75,000 L)	64 oz. (2 litres)	128 oz. (4 litres)	20 oz. (600 ml.)

DESCALING with SCALETEC PLUS® Easy steps to success!

1. Perform "spot check" to determine if deposit is primarily calcium based. Pour a capful of pool acid slowly over affected area. Active bubbling or foaming typifies newer calcium type scale and minimal reaction indicates harder, older scale. For these type of scales, additional product and time is usually required.
2. Add Scaletec Plus® according to chart. Use "summer dosage" for faster cleanup.
3. Raise and maintain water level above scale line during cleanup period.
4. Operate pool pump normal duty cycle.
5. DO NOT shock pool. Avoid high chlorine levels (above 3.0 ppm) during cleanup.
6. After cleanup (de-scaling) period, lower water to normal level.

Cleanup Tips:

- a) Salt chlorinators: TURN OFF CHLORINATOR for 1 to 2 weeks. Use a non-metallic algacide (such as Pooltec®) during cleanup period.
- b) Heavy or old hard scale may take several months with repeat treatments.

IRON and METAL STAIN REMOVAL and PREVENTION:

To remove iron and other stains, add Scaletec Plus® directly to pool water. Operate pool pump's normal daily cycle. Minimize pool shocking. Brushing may aid in faster stain removal. Stain removal requires several days to one week or longer. Use monthly maintenance dosage to prevent metal stains in pools subject to high staining conditions.

WINTER POOL LAYUP:

For winter scale-stain protection, add winter layup dosage at pool closing or at end of swim season. Effective for all types of inground or above ground pools.

PRECAUTIONARY STATEMENTS:

CAUTION: May be harmful if swallowed as a concentrate. Avoid prolonged direct contact with skin, eyes and clothing.

FIRST AID: EYES: Immediately wash with cool water until thoroughly rinsed. **SKIN:** Rinse with water to remove all residue. Seek medical attention if necessary. **IF SWALLOWED:** Drink two glasses of water and contact a physician for guidance.

STORAGE & HANDLING: Keep container closed when not in use. Spills may be slippery. Mop up product with clean water. Do not blend directly with other pool chemicals.

DISPOSAL: Rinse container. Dispose in trash or recycle.
